## **NPDES Permitting Authority 2009 ICR**

NPDES Permitting Authority ICR Questions can be found at:

https://www3.epa.gov/npdes/pubs/npdes\_permittingauthority\_questionnaire.pdf

## File name: Permit Auth 2009 ICR SectAGenInfo.csv

Each file includes a SurveyID column, which is a unique code for each survey respondent. The heading for each column in the CSV file identifies the question number and the field completed. The data in the CSV file is in the same order as found in the questionnaire. For example:

From the Questionnaire:

A-1. Fill in the following identifying	and contact information.	
Name:		
Title:		
Agency/Department:		
Street Address:		
City:		
State:	Select	Zip Code:

The following data is found in the CSV file (note that personally identifying information, such as names, phone numbers, and email addresses, have been removed).

QA1Agency/Dept – Respondent's Agency name or department

QA1City – City of respondent's agency

QA1State – State of respondent's agency

QA1Zip – Zip code of respondent's agency

All data follows this format. Where a respondent did not reply to a question, the data field is either blank or a "-999" is entered.

Some questions are multiple choice with a number indicating the respondent's answer. For these questions, the following key will help identify the answer (these generally follow the order of the question).

## File name: Permit Auth 2009 ICR SectB3RetrofitMonitor.csv

Question B-33. Has your state measured improvements in water quality resulting specifically from the implementation of stormwater performance standards and/or design criteria? If yes, can you share such data?

Yes = Yes, my state has measured such water quality improvement and we have data to share

Yes, No Data = Yes, my state has measured such water quality improvement but we don't have data to share

Yes, Unmeasured = My state has implemented such standards but we have not measured water quality improvements

No = My state has not implemented such standards

## File name: Permit Auth 2009 ICR SectD1SWDschPerfStds.csv
